## Objective

As a passionate and highly motivated fresher, my objective is to secure a position as a Full Stack Web Developer, where I can leverage my skills in front-end and back-end development to create dynamic and innovative web applications. I am eager to contribute my knowledge in technologies such as Python, Django , MySQL, HTML, CSS, Bootstrap, JavaScript, jQuery , Angular, Rest API, GitHub ,etc. while continuously learning and adapting to new trends and best practices in the field. Seeking a collaborative and growth-oriented environment, I aim to be an integral part of a dynamic team, driving impactful projects and delivering exceptional user experiences.

## Experience

<b>Python Django intern</b>	<b>JAN 2023 - JUN 2023</b>
<b>Luminar Technolab, Cochin</b>	
Completed an in-depth Python Django full-stack web development course based internship, covering frontend and backend development using HTML, CSS, JavaScript, and Django framework.	
Gained expertise in building dynamic and responsive web applications, incorporating databases and RESTful APIs.	
Learned about version control using Git and deployment strategies to host web applications on various platforms.	
Acquired knowledge of user authentication, data modeling, and security practices in web development.	

## Education

<b>Hindu College, University of Delhi</b>	<b>2019-2022</b>
Bachelor of Science in Physics Honours - 81 %	
<b>Shenoy Smaraka GHSS,Kannur</b>	<b>2016-2018</b>
Higher Secondary in Biology Science - 99.3 %	

## Skills

<b>Python</b>
Strong understanding of Python's syntax and core concepts including variables, datatype, conditions, functions, loops and modules. Knowledge of object oriented programming (OOP) principle.
<b>Django</b>
